EDUCATION & CERTIFICATIONS

OSCP (Offensive Security Certified Professional)

Offensive Security | 2023

Hands-on penetration testing and advanced exploit development.

CISSP (Certified Information Systems Security Professional)

(ISC)2 | 2023

Comprehensive information security certification covering 8 domains.

AWS Solutions Architect

Amazon Web Services | 2022

Cloud architecture and deployment on AWS platform.

Certified Kubernetes Administrator

CNCF | 2022

Container orchestration and cluster management.

KEY PROJECTS

Shadow AI Security Engine

AI-Powered Threat Detection |

Led development of an AI-driven security engine for real-time threat detection and automated response.

Fintech Platform

High-Traffic Payment System |

Built scalable fintech platform handling high transaction volumes with real-time processing.

zingri.dev

Personal Portfolio |

Cyberpunk-themed portfolio with Next.js, MongoDB, and advanced animations.

LEADERSHIP

- Open Source Contributor - Active in security and developer tooling communities
- Community Mentor - Guiding emerging developers in cybersecurity and full-stack development
- Technical Speaker - Presenting on system architecture and offensive security topics
